Apparel Ecopreneur: Transforming Textile Waste into Business Value and Sustainable Livelihoods

The future of India's apparel industry will depend not only on its manufacturing scale and export capabilities, but increasingly on how intelligently it utilises resources, manages production efficiencies and responds to the growing demand for responsible fashion. Sustainability is no longer confined to environmental compliance; it is emerging as a business imperative that directly influences sourcing, product development, operational efficiency and market competitiveness.

Recognising this transition, the Apparel, Made-Ups & Home Furnishing Sector Skill Council (AMHSSC) has introduced the Apparel Ecopreneur qualification, an NSQF Level 5 programme, to equip apparel professionals with the capabilities required to integrate sustainability into business and manufacturing operations.

For mid-management professionals across garment manufacturing, merchandising, sourcing, production planning, quality assurance and product development, the programme offers an opportunity to move beyond conventional functional responsibilities and develop a value-chain perspective. Understanding sustainable material selection, zero-waste cutting, resource optimisation, circular production, traceability and sustainability compliance can help professionals identify operational improvements, minimise material losses and contribute to more efficient, market-responsive manufacturing.

The scale of opportunity is significant. According to the Ministry of Textiles' 2026 report on India's textile waste value chain, the country generates approximately 70.73 lakh tonnes of textile waste annually, while its textile recycling market is projected to reach USD 3.5 billion by 2030, with the potential to create nearly one lakh green jobs.

These developments underscore the growing commercial relevance of waste recovery, upcycling and circular product innovation.

An equally important opportunity lies in connecting industrial waste streams with rural enterprise. Fabric offcuts, surplus materials and discarded textiles can be channelled into the creation of finished products such as bags, accessories, utility products, patchwork furnishings, cushions and lifestyle merchandise. With appropriate design inputs, production training, quality standards and market access, Self-Help Groups (SHGs), particularly those involving rural women, can participate in this emerging value chain.

The role of skilled apparel professionals becomes critical in enabling this ecosystem. Their expertise in pattern development, product costing, quality control, production planning, branding and merchandising can help transform informal craft-based activities into structured, market-oriented micro-enterprises. Such linkages can create a meaningful convergence between industrial sustainability, rural livelihood generation and entrepreneurship.

The Apparel Ecopreneur qualification integrates these dimensions through practical learning in sustainable sourcing, eco-design, circular production, waste-to-product development, compliance and business planning. It is designed to help professionals identify opportunities not merely to reduce waste, but to create additional value from materials, processes and capabilities that already exist within the apparel ecosystem.

At AMHSSC, we believe that the next phase of India's apparel growth must be driven by professionals who combine manufacturing excellence with commercial foresight and environmental responsibility.

Through the Apparel Ecopreneur initiative, our endeavour is to develop a new generation of industry leaders and entrepreneurs who can make sustainability productive, circularity commercially viable, and skill development a catalyst for inclusive growth.

EVENTS & ACTIVITIES

DATE : 15th JULY, 2026

World Youth Skills Day Celebration

The World Youth Skills Day celebration highlighted the achievements of skilled women learners and the importance of skill development in creating sustainable livelihood opportunities. The occasion featured their felicitation by Shri Jayant Chaudhary, Hon'ble Minister of State (Independent Charge), MSDE, recognising their journey towards a skilled and self-reliant future.

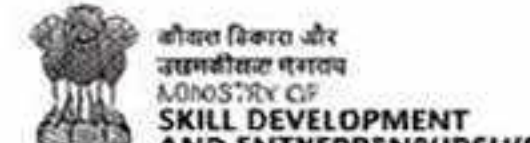

DATE : 15th JULY, 2026

Driving Skill Development Through Collaboration

AMHSSC engaged in a productive discussion with Shri Jayant Chaudhary, Hon'ble Minister of State (Independent Charge), Ministry of Skill Development & Entrepreneurship, on key initiatives including PM SETU, PMKVY and the Centre of Excellence Guidelines.

Representing AMHSSC, Shri Premal Udani, Chairman, and Mr Ashish Srivastava, CEO, shared perspectives on industry-led skilling, workforce readiness and strengthening collaboration to build India's talent ecosystem.

Premal Udani
Chairman
Apparel, Made-ups &
Home Furnishing
Sector Skill Council

On behalf of the Apparel, Made-ups & Home Furnishing Sector Skill Council, I welcome the India-UK Comprehensive Economic and Trade Agreement (CETA) coming into force today.

This agreement expands market access and deepens industry partnerships between India and the United Kingdom. For our sector, CETA presents a major opportunity to boost exports of apparels, made-ups, and home-furnishing products; create quality job opportunities across the value chain; and strengthen skills, standards and supply chain resilience. The Council will work closely with industry partners, training providers and the government to ensure Indian manufacturers and skilled professionals are ready to seize these new market opportunities and deliver sustainable, inclusive growth.

DATE : 15th JULY, 2026

India-UK Comprehensive Economic and Trade Agreement

The India-UK Comprehensive Economic and Trade Agreement (CETA) marks an important development for India's apparel, made-ups and home furnishing sector.

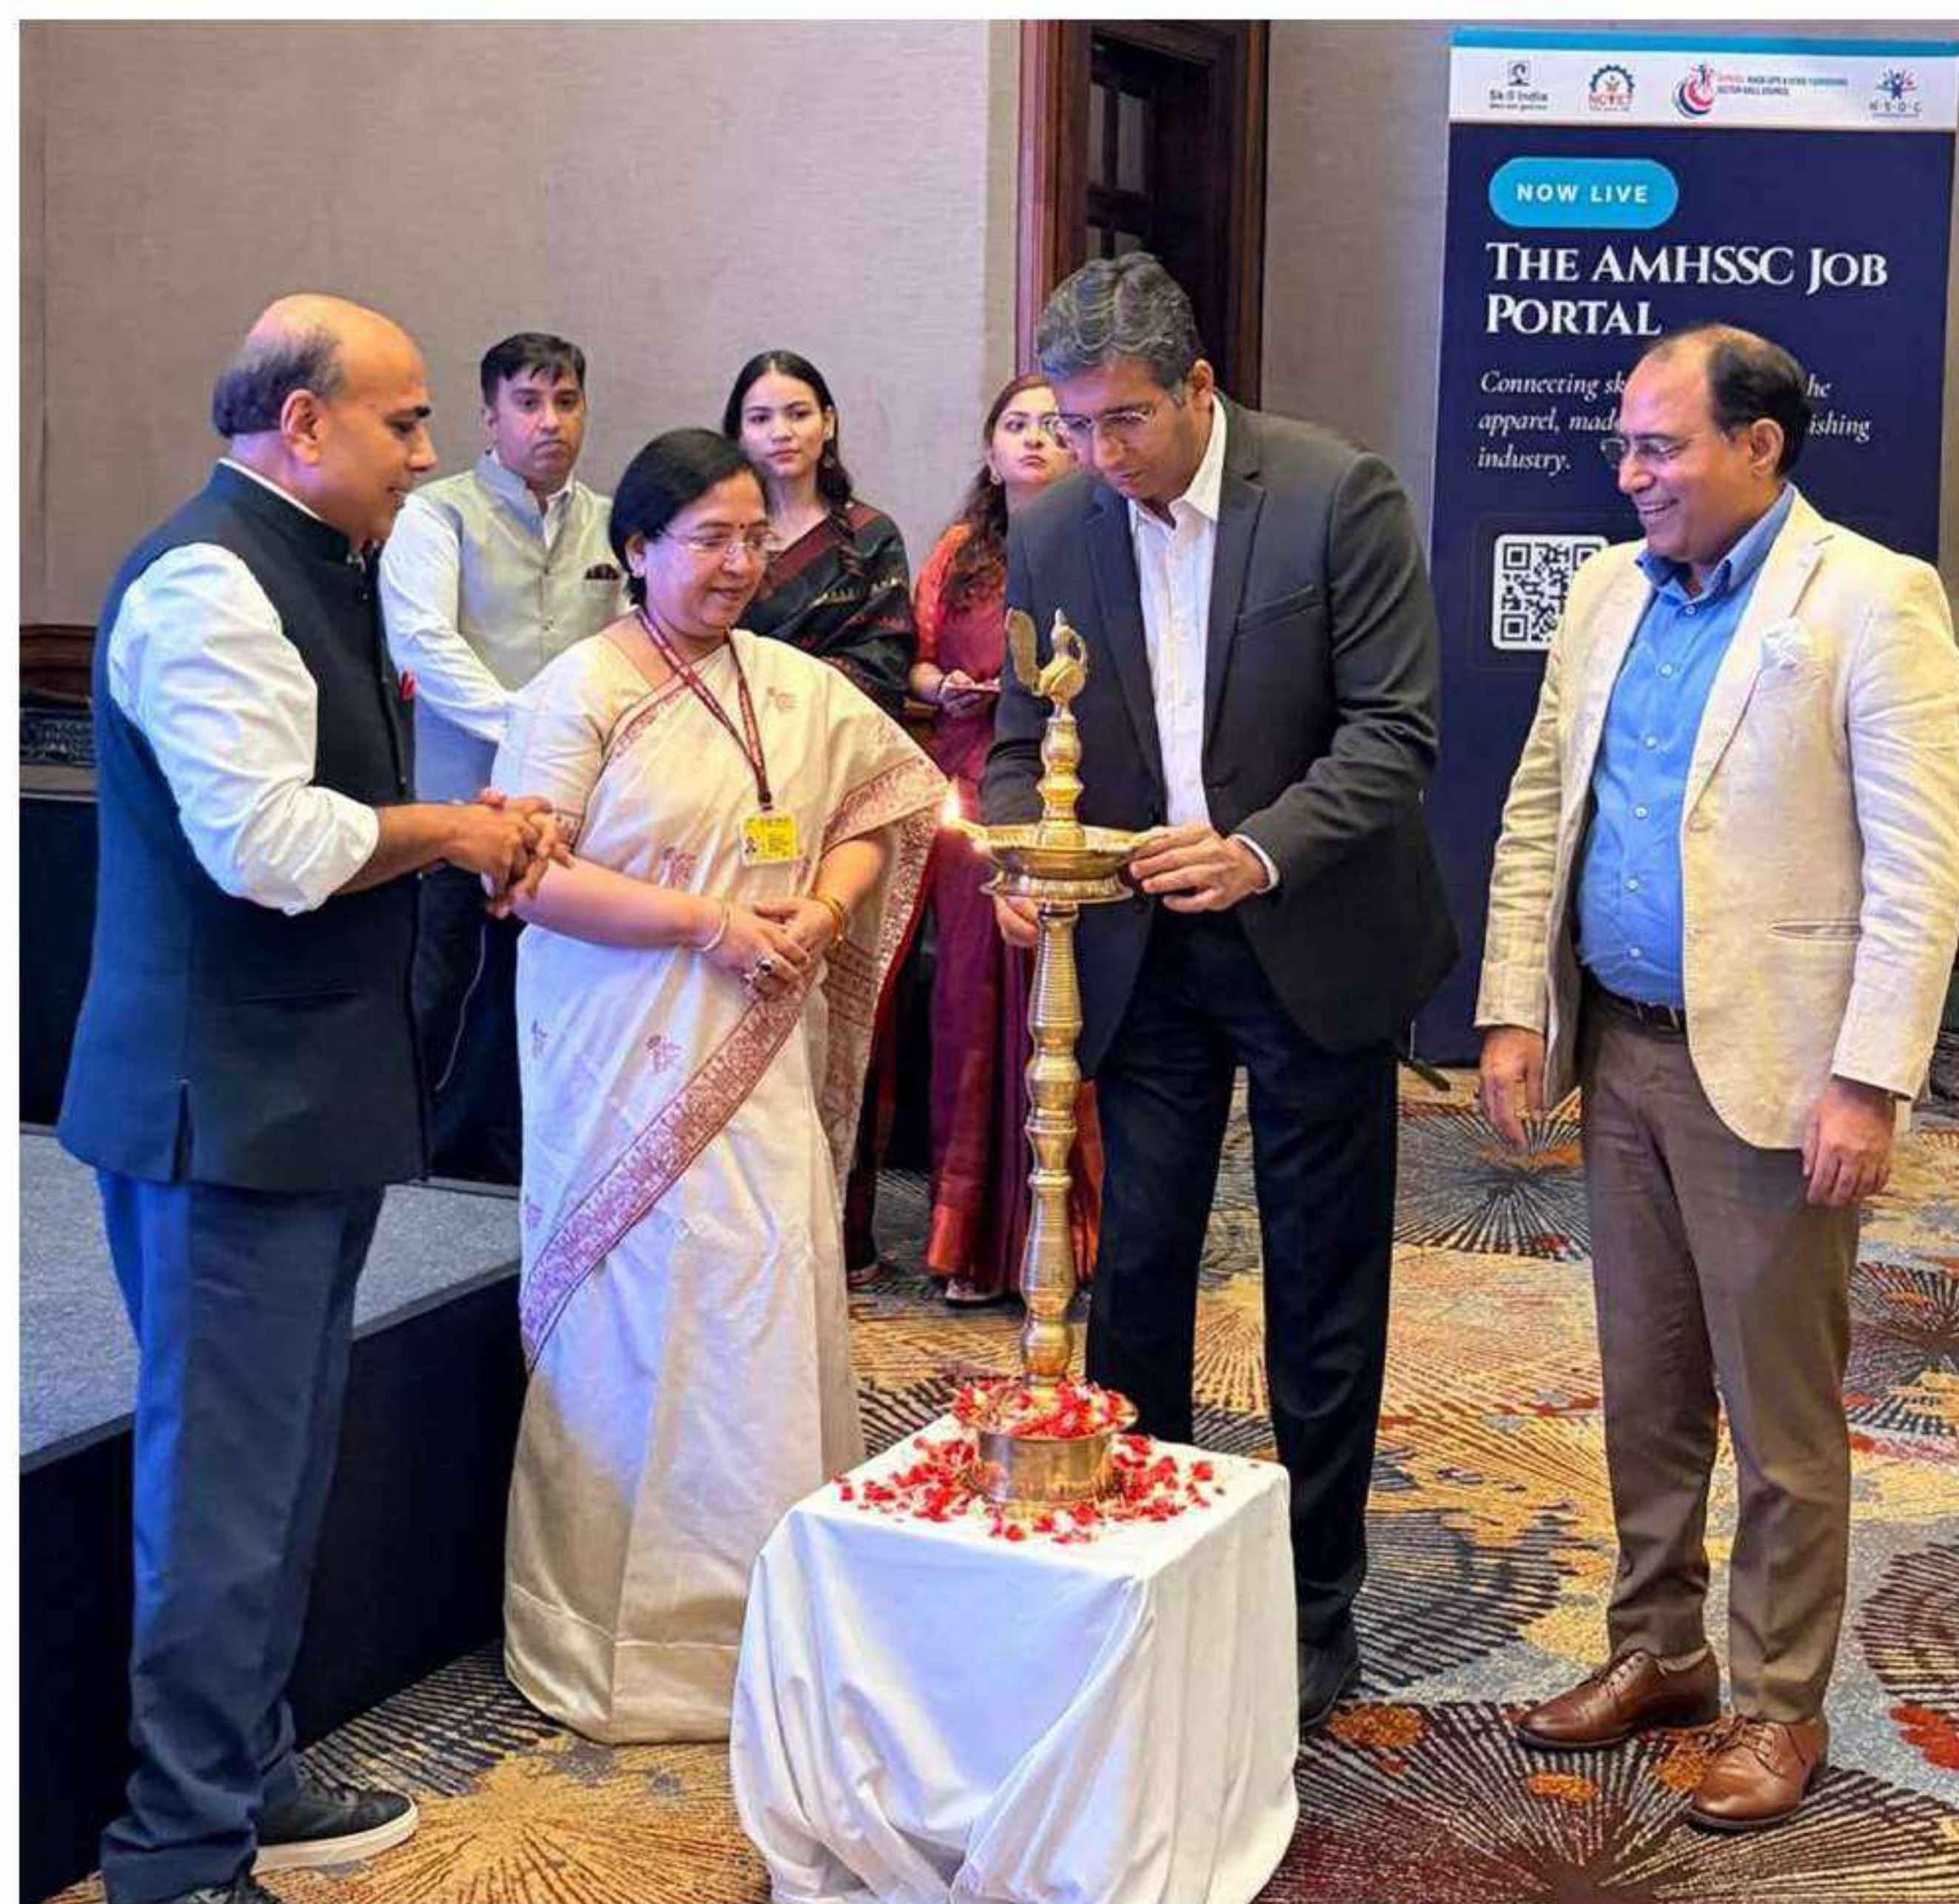

With expanded market access and export opportunities, the agreement can support industry growth, competitiveness and the demand for skilled talent.

AMHSSC remains committed to developing industry-ready talent to support the sector's evolving global opportunities.

DATE : 21st JULY, 2026

Weaving Skills into Growth | Shaping a Future-Ready Workforce

For the Industry Consultation Workshop, Shri Premal Udani, Chairman, AMHSSC, shared his vision on strengthening industry collaboration and building a skilled, future-ready apparel workforce.

DATE : 23rd JULY, 2026

Inauguration of the Industry Consultation Workshop

The Industry Consultation Workshop – Weaving Skills into Growth | Shaping a Future-Ready Workforce commenced with a traditional Lamp Lighting Ceremony, marking the inauguration and the beginning of meaningful discussions on strengthening the apparel sector.

The ceremony was graced by Ms. Manisha Sansarka, IES, Economic Adviser, MSDE; Shri Premal Udani, Chairman, AMHSSC; and Mr. Ashish Srivastava, CEO, AMHSSC, along with industry leaders, reaffirming the commitment to building a skilled, future-ready workforce.

DATE : 23rd JULY, 2026

A Welcome to Begin the Dialogue

The Industry Consultation Workshop began with Mr. Premal Udani, Chairman, AMHSSC, welcoming Ms. Manisha Sensarma, IES, Economic Adviser, MSDE.

The occasion highlighted the importance of government–industry collaboration in strengthening India’s skilling ecosystem.

DATE : 23rd JULY, 2026

Panel Discussion 1: Shaping a Future-Ready Workforce

The first panel discussion at AMHSSC’s Industry Consultation Workshop – Weaving Skills into Growth | Shaping a Future-Ready Workforce brought together industry leaders and government officials to discuss the evolving workforce needs of the Apparel, Made-Ups & Home Furnishing sector.

The discussion covered skill gaps, workforce availability, women’s participation, training infrastructure and emerging job roles, with a focus on building a sustainable, future-ready talent pipeline.

DATE : 23rd JULY, 2026

Panel Discussion 2: Upskilling for a Future-Ready Workforce

The second panel discussion at AMHSSC’s Industry Consultation Workshop – Weaving Skills into Growth | Shaping a Future-Ready Workforce focused on strengthening the sector through continuous learning, upskilling and reskilling.

The discussion explored RPL, trainer development, career progression, government initiatives and future-ready skills, along with practical strategies to strengthen the sector’s talent ecosystem.

DATE : 23rd JULY, 2026

Aligning Skills with Industry Needs

At the AMHSSC Industry Consultation Workshop, Mr. Ashish Srivastava, CEO, AMHSSC, highlighted the importance of industry collaboration in identifying emerging job roles and addressing critical skill gaps. He also highlighted AMHSSC's Skill Gap Study and Job Portal as key initiatives to connect industry with skilled talent and strengthen the workforce ecosystem.

DATE : 23rd JULY, 2026

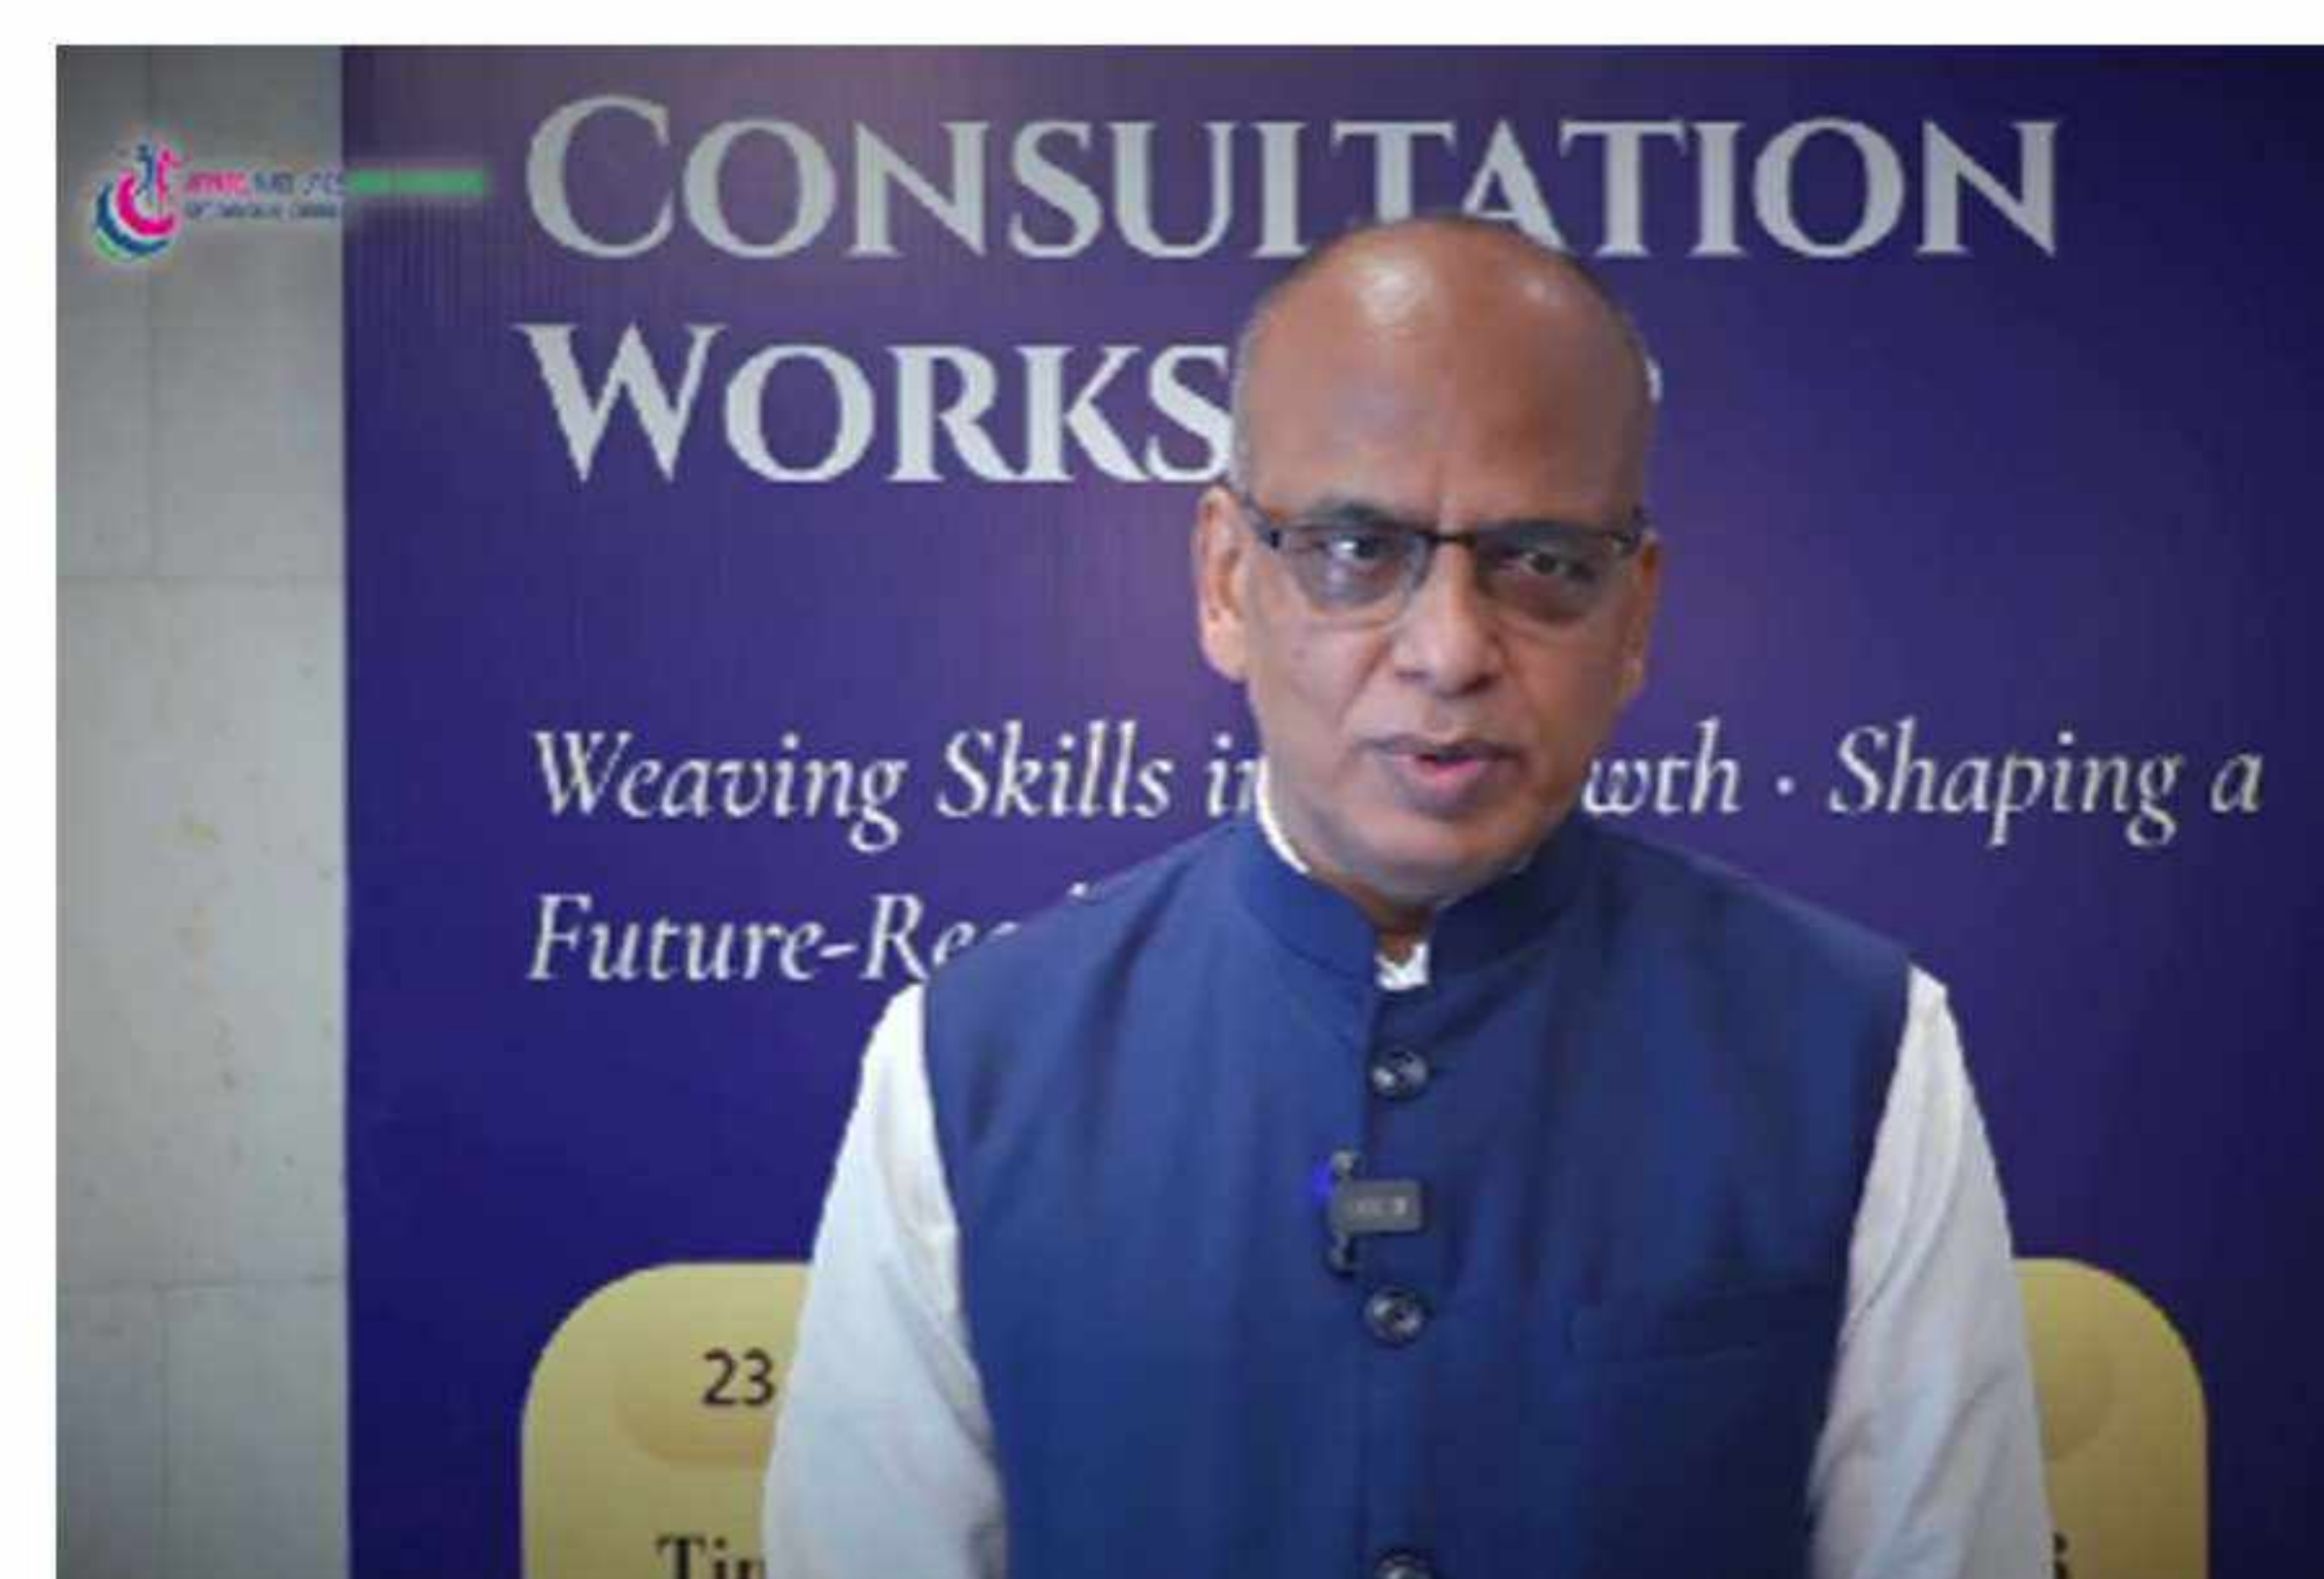

Industry Perspectives on Workforce Development

The AMHSSC Industry Workshop on Workforce Availability & Skill Gap brought valuable industry perspectives from Mr. Lalit Thukral, Chairman, NAEC. He highlighted the importance of upskilling operators and taking industry-relevant skilling initiatives to factories and workplaces, particularly to support MSMEs and exporters in meeting evolving workforce needs.

DATE : 23rd JULY, 2026

Industry Participation at the Consultation Workshop

The AMHSSC Industry Consultation Workshop featured valuable perspectives from Mr. Sanjeeva Singh, Executive Vice President, on preparing the apparel sector for evolving technologies and future-ready manufacturing. He also highlighted the importance of worker retention, improved workplace conditions and stronger collaboration between industry and skilling stakeholders.

DATE : 23rd JULY, 2026

Industry Participation in Skill Development Dialogue

The AMHSSC Industry Dialogue on Workforce Availability & Skill Gap brought together industry perspectives on workforce needs, upskilling and evolving industry requirements. Mr. Anjani Kumar Mishra, National Head (Skill Development), Shahi Exports, highlighted the importance of stronger industry–skilling collaboration and recognised AMHSSC’s efforts towards advancing skill development in the apparel sector.

DATE : 10th AUGUST, 2026

Student Development Programme on Ladies Capri Development

SDP 08 – Application of Industrial Engineering Concepts for Design and Development of Ladies Capri was organised at COE Coimbatore for II & III year B.Voc. Garment Designing students, with 25 participants. The programme provided

industry-oriented exposure to garment production, industrial engineering concepts, pattern making, sample development, machine operations and line production, enabling students to develop a ladies Capri through practical learning.

DATE : 11th AUGUST, 2026

Certificate Programme on Tech Pack Development

CP 08 – Tech Pack: A Tool for Clothing Brands was conducted at COE Coimbatore for 25 II B.Voc. Garment Designing students. The programme provided practical, industry-oriented learning in technical sketches, colourways, BOM, measurements, size grading, labelling and packaging, enabling students to create individual Tech Packs and understand the apparel product development process.

DATE : 14th AUGUST, 2026

Independence Day Celebration at Baghat

On the eve of India's 80th Independence Day, Smt. Charu Singh Ji, Trustee, Kisan Trust, hoisted the National Flag at the Chaudhary Ajit Singh Centre of Excellence for Design and Fashion Technology, Baghat.

The programme celebrated skill development, employment and women-led livelihoods, with appointment letters presented to trained women and sewing machines provided to a Self-Help Group supported by AMHSSC.

DATE : 15th AUGUST, 2026

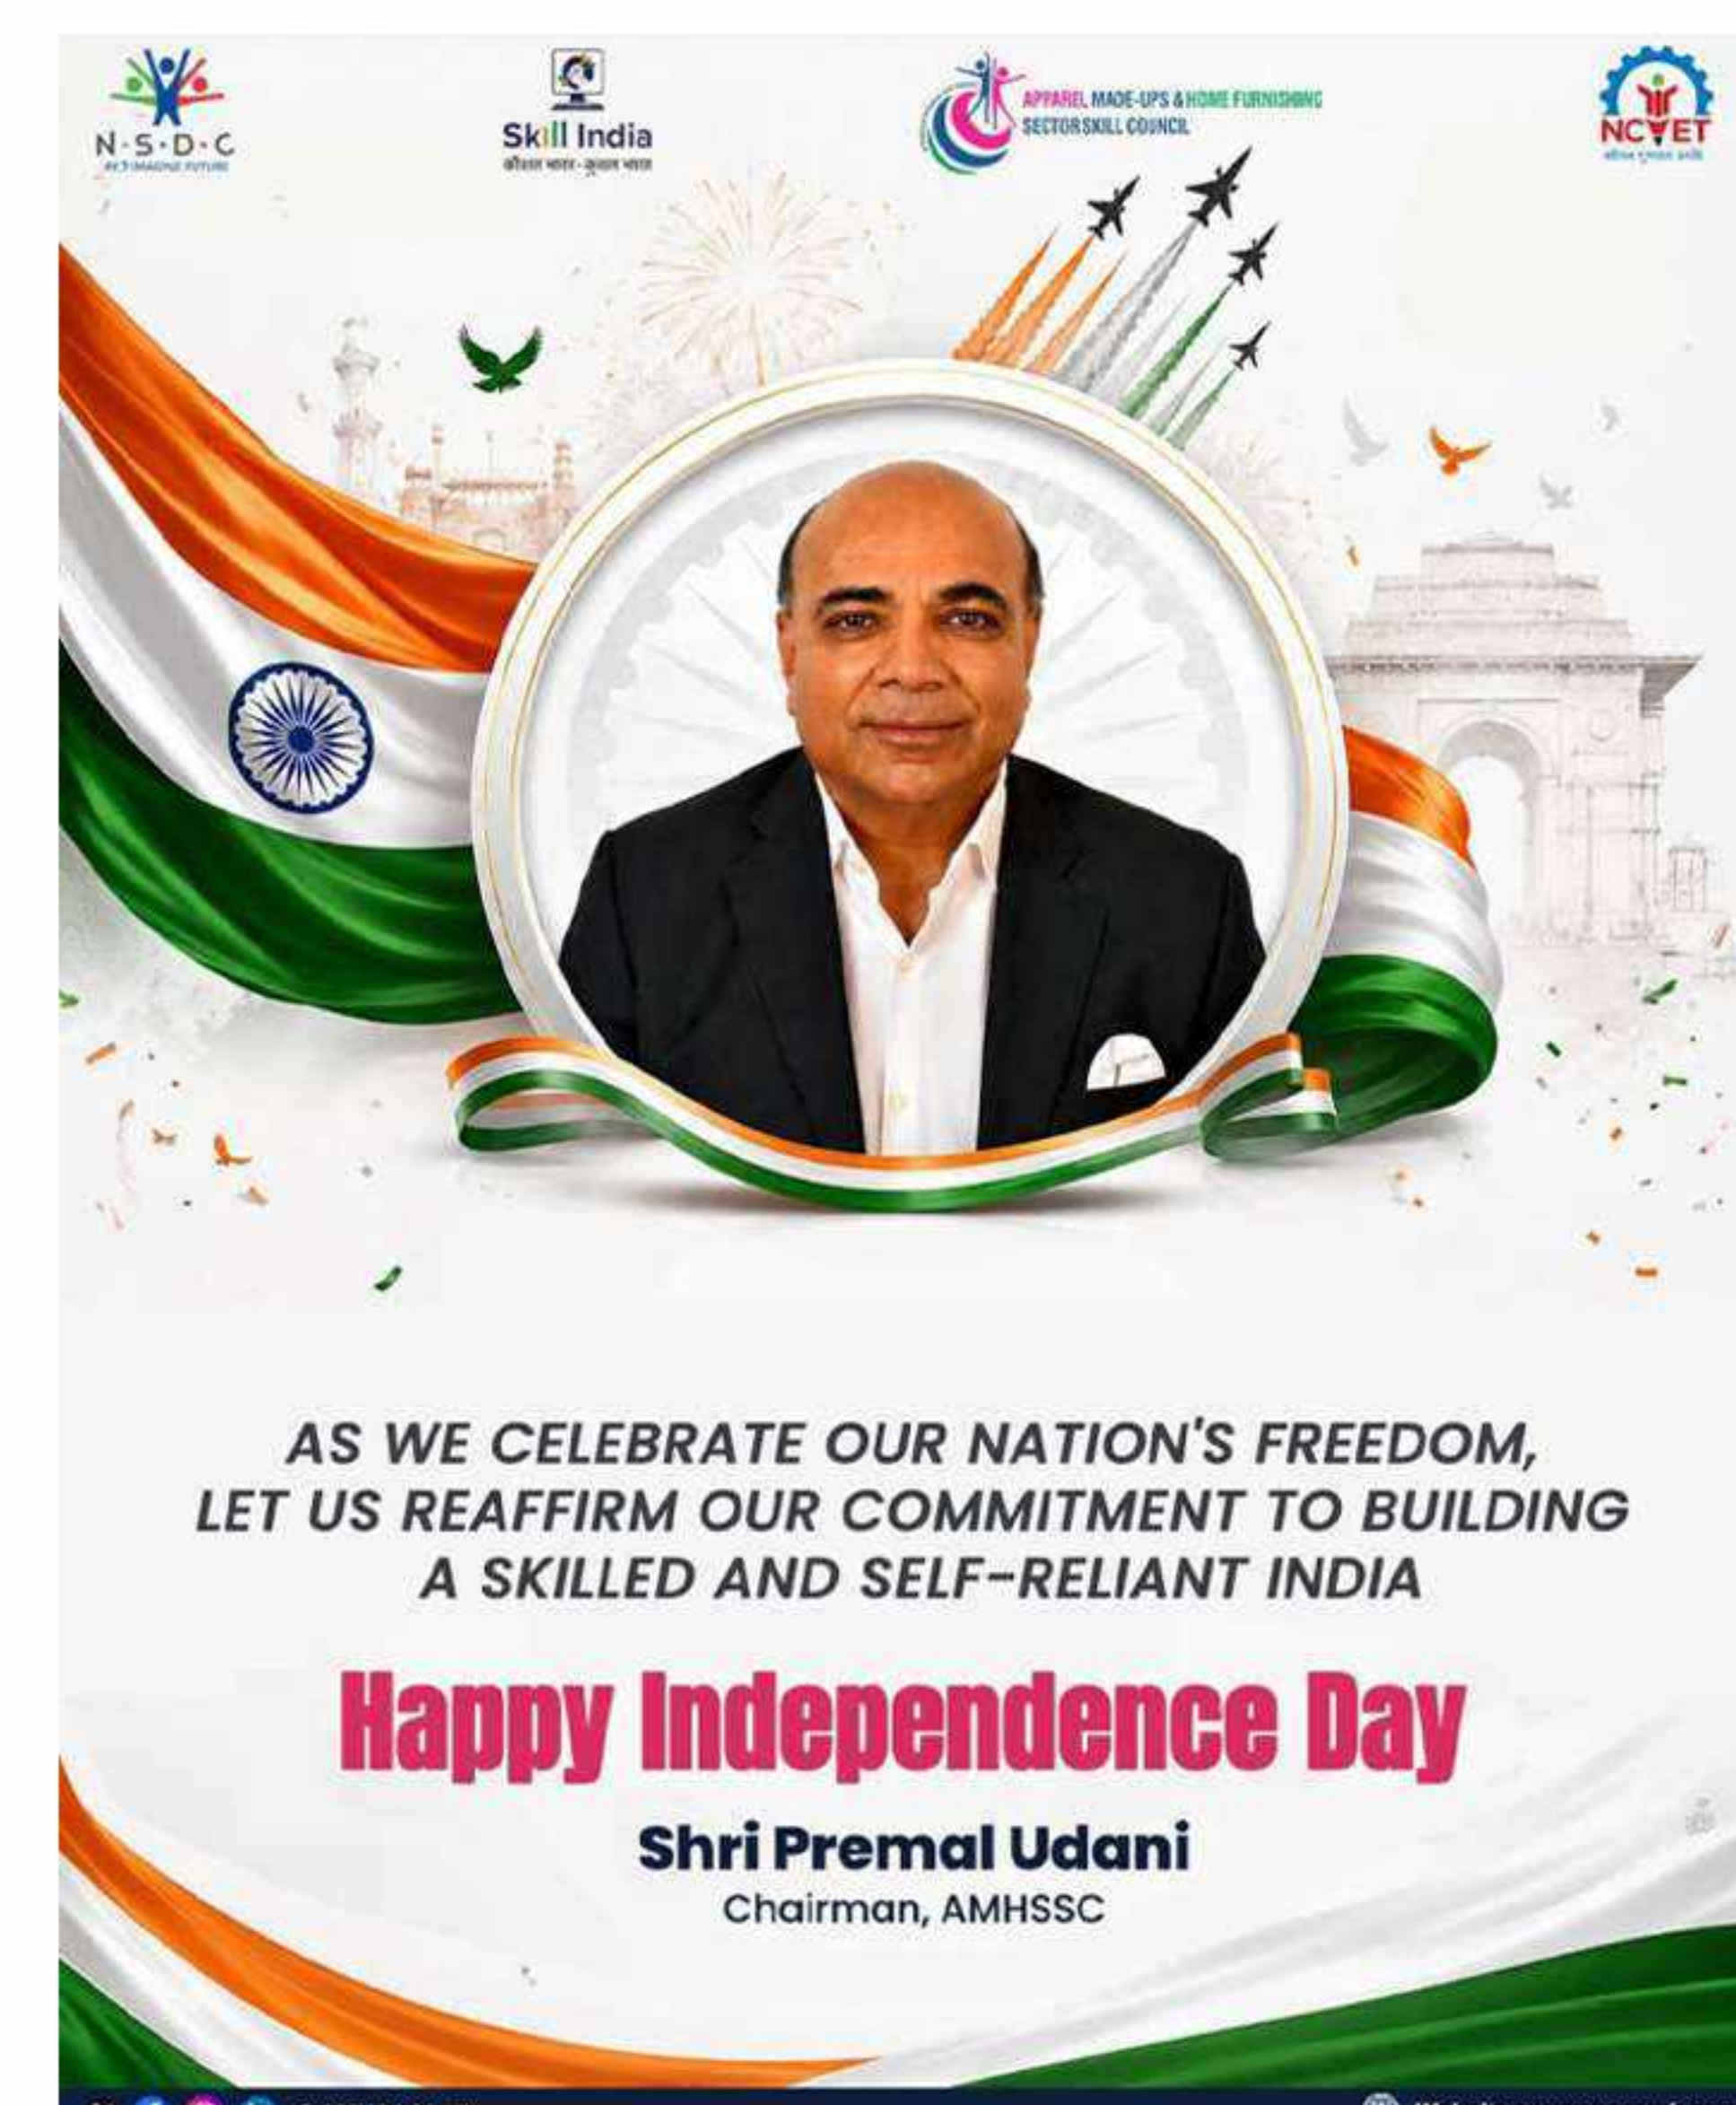

Independence Day Message

This Independence Day, let us take pride in the **hands, minds and skills** that continue to shape India's progress.

Wishing you a very **Happy Independence Day**.

— **Shri Premal Udani**

Chairman, AMHSSC

DATE : 27th AUGUST, 2026

AMHSSC on Aap Ki Baat DD National

AMHSSC's Industry Consultation Workshop brought together industry perspectives on strengthening the skill ecosystem and building a future-ready workforce for the Apparel, Made-Ups & Home Furnishing sector.

DATE : 3rd SEPTEMBER, 2026

Strengthening Industry-Aligned Skills

AMHSSC works closely with industry to understand evolving skill requirements and identify workforce gaps across the Apparel, Made-Ups & Home Furnishing sectors.

These insights help shape relevant training programmes aligned with industry needs, supporting the development

of a skilled and future-ready workforce for India's growing global presence.

DATE : 15th SEPTEMBER, 2026

Awareness Walk-in at COE Coimbatore

An Awareness Walk-in Programme was organised at AMHSSC COE Coimbatore for 180 first-year MBA students from GRG School of Management Studies. The programme provided practical exposure to the apparel manufacturing ecosystem, garment production processes, industrial sewing machines and the role of skill development, helping students connect management concepts with real-world industry practices.

DATE : 18th SEPTEMBER, 2026

Empowering Women Through Skilling

AMHSSC organised a Certificate and Sewing Machine Distribution Ceremony in Sambalpur, Odisha, celebrating 100 women who successfully completed the four-month Self-Employed Tailor Training Programme.

The ceremony was graced by Shri Dharmendra Pradhan Ji, Hon'ble Member of Parliament, Sambalpur, and Shri Rabi Narayan Naik Ji, Hon'ble Minister of Panchayati Raj & Drinking Water, Odisha.

The initiative highlights skilling as a pathway to sustainable livelihoods, financial independence and entrepreneurship for women.

DATE : 19th SEPTEMBER, 2026

AMHSSC Signs MoU with Government of Bihar

AMHSSC exchanged an MoU with the Government of Bihar under Project RAMP, in the presence of Ms. Shreyasi Singh, Hon'ble Industries Minister of Bihar.

The partnership aims to strengthen skill development, workforce readiness and employment opportunities in Bihar's apparel sector.

DATE : 23rd SEPTEMBER, 2026

CSR Partner Appreciation Award 2026

AMHSSC was honoured with the CSR Partner Appreciation Award 2026 from Mahindra & Mahindra Ltd. at the CSR Partners Meet in Mumbai, recognising its contribution and partnership in advancing impactful CSR initiatives.

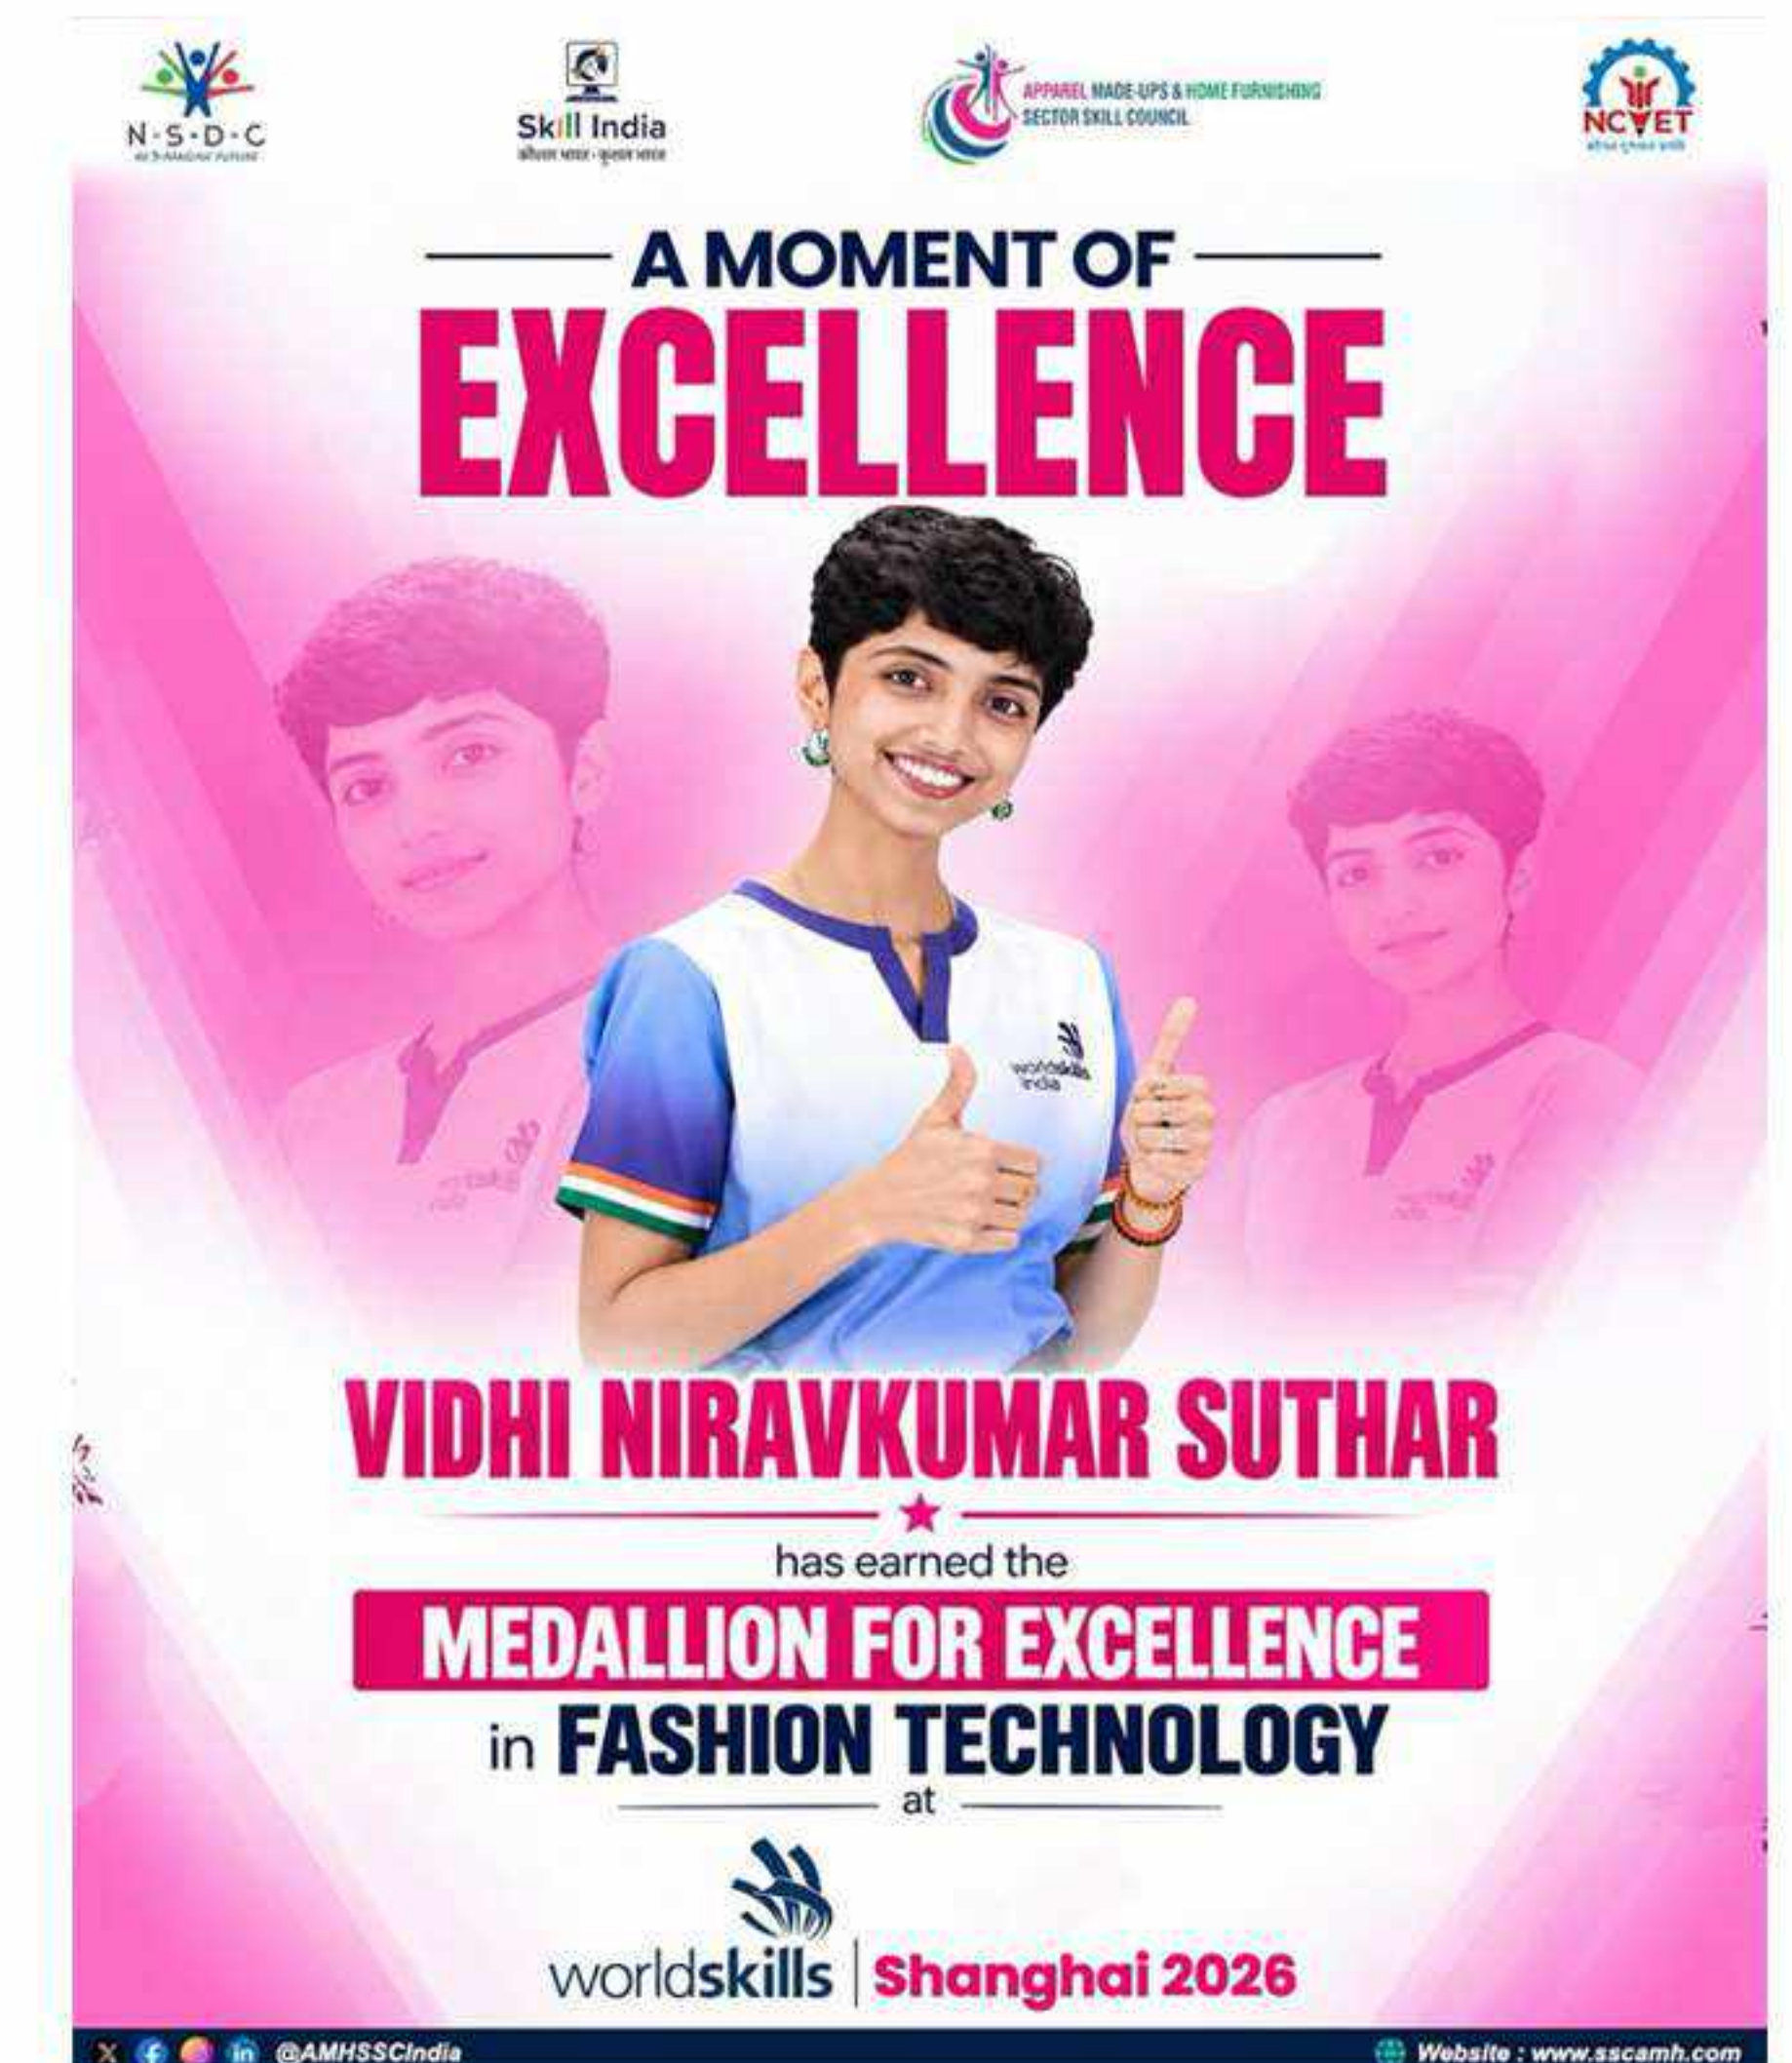

DATE : 28th SEPTEMBER, 2026

A Moment of Excellence

Vidhi Niravkumar Suthar earned the Medallion for Excellence in Fashion Technology at WorldSkills Shanghai 2026.

Her achievement reflects skill, precision and dedication on the global stage.

AMHSSC congratulates Vidhi on this remarkable achievement and wishes her continued success ahead!

DATE : 29th SEPTEMBER, 2026

Supporting a Nasha Mukht Bharat

As part of the Nasha Mukht Bharat Abhiyaan (N MBA), AMHSSC supported the nationwide campaign to raise awareness and encourage collective action against substance abuse.

The initiative reflects a commitment to building a healthier, stronger and drug-free India through awareness, responsibility and positive choices.

AMHSSC Job Portal: Connecting Apparel & fashion talent with opportunity

India's apparel, made-ups and home furnishing industry is a major source of employment. Yet employers seeking skilled workers and people looking for meaningful work have often struggled to find one another. The Apparel, Made-ups & Home Furnishing Sector Skill Council (AMHSSC) has launched its Job Portal to help close that gap—free of cost for applicants and employers.

Employers, including export houses, garment manufacturers and home furnishing businesses, can register, post vacancies and browse candidate profiles. They can search by trade, skill level and location to find people for roles such as cutting, stitching, finishing, quality checking and supervision.

Candidates can create a professional profile featuring their skills, certifications, work experience and preferred location. This helps make their qualifications visible to employers across the country and gives trained workers, certified operators and fresh apprentices a place to explore relevant opportunities.

To get started, visit <https://jobs.sscamh.com/> Applicants are advised to keep their profile details and credentials accurate and up to date. Employers can make their listings more useful by clearly describing the role, required skills and work location.

The portal is more than a job board: it is a practical way to connect skilled talent with employers and support the growth of India's apparel and home furnishing industry.

APPAREL INDUSTRY NEWS SECTION

ETHNIC AND HANDLOOM APPAREL MARKET TO REACH \$32.7 BN BY 2032

India's domestic ethnic and handloom apparel market is projected to grow from \$22.8 billion in 2026 to \$32.7 billion by 2032, driven by consumption beyond weddings and festivals. Saris remain the largest category at 38% of demand, with kurtas, fusion separates and coordinated sets at 24%.

<http://www.dfupublications.com/index.php/news/apparel>

TEXTILES MINISTRY TO ADD 5,000–10,000 NEW EXPORTERS

The textiles ministry plans to identify 5,000–10,000 new exporters across districts in 2–3 years to boost India's global textile market share. It is working with states on district-level export roadmaps to turn production centres into export hubs through better infrastructure, market access and support.

INDUSTRY SEEKS SIX-MONTH EXTENSION FOR DUTY-FREE COTTON IMPORTS

India's textile industry has requested a six-month extension for duty-free cotton imports beyond 31 October 2026. The plea comes as cotton yarn prices have risen sharply, squeezing margins for apparel exporters amid already volatile raw material costs and geopolitical supply-chain risks.

<https://economictimes.indiatimes.com/topic/Garments>

ORGANISED APPAREL RETAIL GROWTH SEEN SLOWING TO 12–13%

Organised apparel retailers expect revenue growth to slow to 12–13% this fiscal year, down from about 15% last year. Companies are limiting price hikes despite volatile cotton, yarn and fabric costs, adjusting sourcing, building safety stocks and selectively absorbing costs to protect demand.

<https://retail.economictimes.indiatimes.com/news/apparel-fashion/apparel>

HANDICRAFT AND HANDLOOM EXPORTS HIT \$3.78 BN ANNUALLY

Handicraft and handloom exports have reached \$3.78 billion annually, with handprinted textiles and artisanal scarves up 16.5% year-on-year. This growth underscores rising global demand for India's traditional crafts and supports rural artisan livelihoods across key clusters.

Textile, apparel industry to create 14 million jobs over next decade: Report

BY INDIATRIBUNE | JULY 23, 2026 | 2 MINUTES

New Delhi, July 23 (IANS) India's textile and apparel industry will require 14 million additional skilled workers over the coming decade to fully capitalise on emerging domestic and global opportunities, a report said on Thursday citing industry estimates.

India's textile and apparel sector currently provides employment to nearly 46 million people. Government and industry projections estimate that employment could rise to around 60 million by 2030, industry leaders and policymakers said at a workshop organised by the Apparel, Made-Ups & Home Furnishing Sector Skill Council (AMHSSC).

India's apparel market is projected to reach \$130-150 billion by 2030, growing at a 10-12 per cent compound annual growth rate (CAGR), the statement said.

The surge is driven by consumers increasingly seeking differentiated products across multiple occasions and placing greater emphasis on fashion trends and value.

The event brought together industry leaders, exporters, manufacturers, training partners and policymakers to deliberate on the future skill requirements of India's rapidly evolving textile and apparel ecosystem.

Manisha Sensarma, Senior Economic Advisor, Ministry of Skill Development and Entrepreneurship said that the future of India's workforce depends on stronger partnerships between government and industry.

"Industry must play a central role in identifying skill requirements, developing curriculum, establishing Centres of Excellence, upgrading ITIs through the PM SETU initiative, and shaping a flexible skilling ecosystem that responds to changing market demands," she said.

She emphasised public-private collaboration to create a workforce that is globally competitive and industry-ready. Continuous upskilling in AI and emerging technologies will be essential to enhance productivity and competitiveness, she added.

Premal Udani, Chairman, AMHSSC said the apparel sector is India's second-largest employer after agriculture, and with new Free Trade Agreements creating fresh opportunities, the demand for skilled workers is set to rise significantly.

"Our industry consultations and Skill Gap Study will help align skilling efforts with industry needs, ensuring a steady pipeline of productive and job-ready talent," Udani added.

Ashish Srivastava, CEO, AMHSSC, mentioned the India-UK Free Trade Agreement as a significant milestone for India's textile and apparel industry, opening new export opportunities and enhancing the global competitiveness of Indian manufacturers.

India's textile & apparel sector to need 14 million more skilled workers by 2030: AMHSSC

AMHSSC workshop highlights need for 14 million skilled workers, AI upskilling, export readiness, FTAs and industry-led training for textile sector growth.

EPN Desk

23 July 2026 15:31

India's textile and apparel industry will require a significantly larger pool of skilled manpower over the coming decade to fully capitalise on emerging domestic and global opportunities, industry leaders and policymakers said at the Industry Consultation Workshop organised by the Apparel, Made-Ups & Home Furnishing Sector Skill Council (AMHSSC) at Hyatt Regency, New Delhi on Thursday.

The workshop was inaugurated by Ms Manisha Sensarma, Senior Economic Advisor, Ministry of Skill Development and Entrepreneurship, in the presence of Shri Premal Udani, Chairman, AMHSSC, Shri Ashish Srivastava, CEO, AMHSSC, Shri Lalit Thukral, Chairman, Noida Apparel Export Cluster along with other industry veterans. The event brought together industry leaders, exporters, manufacturers, training partners and policymakers to deliberate on the future skill requirements of India's rapidly evolving textile and apparel ecosystem.

Shri Lalit Thukral, Chairman, Noida Apparel Export Cluster, said the foremost challenge for manufacturers today is access to trained, job-ready workers, particularly as factories adopt new machinery and higher quality standards. Reliable workforce data and a direct pipeline to skilled talent, he added, would be critical as new trade agreements open export markets.

Shri Ashish Srivastava, CEO, AMHSSC, said, "The India-UK Free Trade Agreement marks a significant milestone for India's textile and apparel industry, opening new export opportunities and enhancing the global competitiveness of Indian manufacturers. As the sector expands into new international markets, the demand for a highly skilled workforce will grow correspondingly. Initiatives such as Bharat Tex 2026 will further position India as a preferred global sourcing destination, making industry-aligned skilling essential to support sustainable growth and export competitiveness."

The workshop concluded with a commitment from stakeholders to strengthen industry-led skilling initiatives, align training programmes with emerging technologies and market needs, and prepare India's workforce to power the next phase of growth in the textile and apparel sector.
